SUBJ: End-of-year report

- The Information Literacy resolution sent to the University Resources Policy Committee in spring 2003 was forwarded to the Educational Policy Committee. EPC returned it to the Library Subcommittee with the request that it be given some "teeth." The librarians, when asked to review and consider changes to the resolution, expressed reluctance to change the resolution in any way that would appear to add a burden on faculty. The status of the resolution remains undecided.
- The committee reviewed and approved the Special Needs Funds requests.
- Throughout the year the director of the library briefed the committee on all of the changes that have been and are occurring in the library in terms of physical renovations and technology changes.
