Chair David Oberstar called the meeting to order. The minutes of the February 29, 2000 meeting were approved.

The Subcommittee reviewed proposals submitted for Special Needs Funds and moved, seconded, and approved full funding for proposals submitted by SPEA, OLS, Management and Marketing, Education, Nursing, Music, and Civil & Architectural Engineering Technology. The Subcommittee moved, seconded, and approved funding for four separate Dental Education proposals for a total of \$3000. The Subcommittee emphasized that proposals should provide more cogent and convincing evidence that materials purchased will indeed support a need and be used.

Discussion of ReservesEXpress and course packs was postponed until the April meeting.
